

MISSION

PVS Portugal Group is committed to continuous improvement and the satisfaction of Customers, Employees, and Stakeholders, aiming to be recognized as a Group of Excellence.

We provide our clients with advanced technology, deep expertise, and a dedicated team, ensuring every customer recommends our products and services.

VISION

To be a leading company, achieving national and international leadership in the engineering, manufacturing and sales of steel molds for plastic injection, as well as high-precision machined components for aerospace and defense industries.

VALUES

Customer Orientation – Ensure satisfaction and loyalty;

Innovation – Drive progress by adopting advanced technologies to consistently improve products and services;

Teamwork & Motivation – Encourage teamwork, drive motivation, and cultivate strong professional relationships;

Integrity & Respect – Maintain honesty and professionalism in all interactions;

Excellence & Rigor – Meet and exceed client requirements with precision;

Ambition – Pursue objectives with passion and dedication;

Results Orientation – Achieve goals efficiently, meeting defined standards for quality, time, and cost;

Environmental Responsibility – Promote sustainable practices and minimize environmental impact.

QUALITY & ENVIRONMENTAL POLICY

The strategic guidelines of the **PVS Portugal Group** are:

Customer Satisfaction

Build strong, trust-based relationships through personalized service, consistently exceeding client expectations.

Employee Development

Support continuous growth, initiative, teamwork, and provide the training and environment needed for optimal performance.

Supplier & Partner Relations

Build strong, long-term relationships that deliver mutual benefits through trust and collaboration.

Business Sustainability

Deliver positive results, ensure long-term continuity, and expand responsibly to benefit all stakeholders.

Compliance

Adhere to all applicable legal, regulatory, and ISO requirements (NP EN ISO 9001:2015, EN 9100:2018, NP EN ISO 14001:2015).

Innovation & Continuous Improvement

Continuously enhance processes and management effectiveness through goal-setting, monitoring, and stakeholder engagement.

Environmental Stewardship

Manage environmental impacts, promote sustainable resource use, prevent pollution, and improve energy efficiency for the benefit of all stakeholders.
